Your Horoscope

LEARN WHAT the stars and planets say about your future. If you expect to make any changes during the year, by all means have an Astrologer point out the days and dates when the planets are favorable for your interests. These are critical times and you need counsel and advice as never before. If you have made errors in the past, see that you do not make them in the future. There is no disputing the fact that the Astrologer can point out with remarkable accuracy and fortell coming events which are beyond the power of the average mind to foresee.

Surely you are interested in yourself and want to know more about your future. We send you a lengthy Astrological Reading covering the entire year; one that you can consult today and prepare for what is coming tomorrow. As long as your star of Destiny is favoring you, your affairs will run smooth and prosper, but when the planets are in evil aspect everything goes wrong, you then say you are having "bad" luck. Surely this has come to your notice. From the Astrologer's view the year 1928 will be the most eventful year in the world's history. Many a fortune will be made and lost. Therefore, when you have an important matter to decide, and are at a loss
